

OVERLORD PLATES

3-125MIL LEVEL III ICW

Overlord Hard Armor Plates are designed and manufactured in the USA according to strict quality guidelines using state of the art manufacturing equipment and processes. Built to exceed military and law enforcement standards, the Overlord Plate is superior to other products on the market today. When it comes to weight, performance and cost there is no comparison. Overlord plates are designed to withstand ballistic and shrapnel threats of all types based on level of protection. Hard Armor plates can be used in a variety of CW or a competitor's carrier including soft armor carriers and hard plate carriers. Overlord plates are versatile and help to improve chances of rifle protection when worn by operators from military, law enforcement and other security personnel.

Design

The Overlord 3-125MIL is one our next generation of 2005 IR independently tested compliant products and is designed to defeat Level III threats from high velocity rifle rounds when used in conjunction with Level IIIA soft armor.
