RAW NATURE SOAPS, ₹ 897 EACH

This new release is one to look out for, if you're a fan of old school soap bars. It comes in four variations, each catering to a different need. We especially love the Volcanic Red Clay and Wild Argan Oil variant that's supremely moisturising and ideal for dry skin types.

ILANA REVIVING MOISTURE MASK AND BRIGHTENING SKIN SERUM, ₹ 950 and ₹ 790

All products by this recently launched brand have concise ingredient lists. The newly released moisture mask is packed with camellia, pomegranate, grape seed and aloe, which nourish your skin. It's great as a sleeping mask. The Brightening Skin Serum is a lightweight oil with papaya oil and lemon that work to combat unwanted pigmentation.

THE PLANT-BASED (SKIN) DIET

Lucky for you, these fantastic new
natural products have just
hit the market*

CAOLION BLACKHEAD STEAM PORE PACK AND PREMIUM PORE ORIGINAL PACK, ₹ 2,200 AND ₹ 1,100

The South Korean brand is now available for purchase in India. They're best known for their pore cleansing masks that do the tough job of unclogging, using only natural ingredients. This mask duo work wonders together. While the former uses heat to open pores and cleanse them, the latter is cooling. It tightens pores and soothes the skin.

ORGANIC RIOT ZAP AND DAZZLE, ₹ 1,390 and ₹ 1,490

This new homegrown label formulates and makes its products in New Zealand. All ingredients and manufacturing processes are sustainable and non-toxic. We love that the vibrant packaging isn't just cool to look at, but also made with recycled materials. These products tackle two major skin concerns: Acne and dark spots.
