

## **Important Drysuit Information . Read Before Putting the Drysuit on.**

1. Use proper undergarment for wicking such as the DUI Poly or Fourth Elements Halo / Arctic
2. Stand on a mat so that no dirt or sand is inserted into the suit.
3. Remove all jewelry / rings , watches etc that may rip the seals.
4. Have someone that knows how to use a drysuit help you size it and put it on. **IF DAMAGE OCCURS TO THE SEALS / ZIPPER ETC . YOU WILL BE LIABLE FOR DAMAGE.**
5. Do not pull on the wrist seals in a manner that will rip them. Push them on by helping the seal over the hand by inserting two fingers on the opposite into the end of the seal.
6. Help the neck seal over the head by using four fingers inserted on each side of the seal. Go Slow. the neck seal should be fitted properly by Hollywood Divers
7. Make sure the zipper is shut completely.
8. After your water activity, the suit and under garment must come back clean. Don't put the drysuit in a washer. Clean it by wearing it and stepping under a shower. Or hang it upside down and hose it off well. Avoid getting water inside the suit. In case of water entering the suit ...it must be rinsed inside out. Please call us for questions.
9. Cleaning fees apply on all pieces rented. Please call 323 969 9666 with any questions.
