Dear Natasha

Regarding the earrings submitted to our laboratory on 22 March 2024 for examination to determine their approximate composition. The earrings were examined by X Ray Fluorescence. Our findings are as follows:

**Scraped**

<b>Customer Reference:</b>	<b>Pt%</b>	<b>Cr%</b>	<b>Ti%</b>	<b>V%</b>
16G Cartilage Hoop, 8mm				
Hoop	-	-	96.13	3.87
Hoop Wire	-	-	96.29	3.71

Please do not hesitate to contact us if you require any further explanation.

Yours sincerely,

**T. Finnigan BSc**
