

OCTOPUSES

HAVE ZERO BONES

1 SENSORY COUNTING

First, cut out each square. Then, fill each square with small objects that correspond to the number inside (e.g. five stones, six pine cones, seven shells, etc.).

1	2	3
4	5	6
7	8	9

2 NUMBERS IN THE WORLD

Octopuses Have Zero Bones is full of examples of numbers in the world. If you look around, you can probably find many more examples. Write them below.

An avocado contains one seed. What other examples can you find in the world of one?

.....

.....

Extra Challenge: Can you find examples of zero in the world?

.....

3

MEASURING AND COUNTING

Choose something, anything. Then, list all of the things about that thing that you can measure or count.

I chose:

.....

How wide is it?

.....

How thick is it?

.....

How much does it weigh?

.....

How old is it?

.....

How many times do I use it each day? Each year?

.....

Five other things I can measure or count:

○

.....

○

.....

○

.....

○

.....

○

.....
