POWERS OF TEN

1

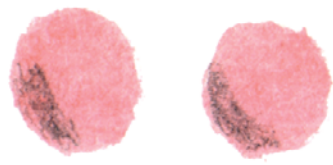

one

1

ten

1

one hundred

1,

one thousand

1

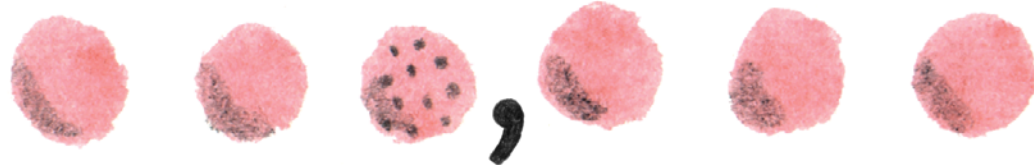

ten thousand

1

one hundred thousand

1,

one million

1

ten million

1

one hundred million

1,

one billion

ZERO is not only nothing. It's also a powerful digit. If we place a zero after a whole number, it makes that number ten times bigger. This is called powers of ten.
