VERIFINE

LONDON

OUR STORY

Verifine was founded in London by husband and wife team Neil and Wendy Duckworth.

Our objective was to create a range of skinny eternity rings using diamonds and precious gems set in a full circle in 18 carat gold. Skinny rings that could be worn individually or together with an engagement ring and wedding ring, or stacked in combinations of 2, 3 or more rings.

VERIFINE

L O N D O N

We offer a unique and colourful range of 18ct gold stacking eternity rings micro-set with diamonds and coloured stones such as black diamonds, rubies, green garnets, blue topaz and sapphires in different colours.

Our skinny rings can be stacked together to make many wonderful colour combinations or simply worn alone.

Our collections also include matching skinny bracelets, earrings and necklaces in 18ct gold.

QUALITY MICRO-SETTING

Verifine skinny rings are beautifully crafted using the best quality raw materials and the latest setting techniques.

Each individual diamond and precious stone is set in its own strong 4 claw setting. This ensures the safety of each stone whilst allowing the gems to sparkle and glitter.

ENDLESS COMBINATIONS

From the subtle look of a single eternity to a stack of different colours, or perhaps a scattering of colourful gemstones over all fingers.

The colours can be mixed and matched and adapted to suit the occasion, mood or the outfit.

Being fully set and 1.5 mm wide, our rings are ideal for stacking and creating colourful combinations of 2, 3, 4 or even 5 rings.

X RANGE 10-STONE FILLER RINGS

Our X range includes 2 styles.

The **XV style** uses a rub-over setting for the 10 diamonds in a 2 mm wide band.

The **XX style** features 10 individually claw-set diamonds in a 1.5 mm wide band.

Both styles can be worn on their own or as filler rings with our original full eternity rings, giving many more options for original combinations.
