

FLYGRAF AIR & SPACE FORCE UTC FEMME WATCHES

POSITION B DATE SETTING

In order to adjust the date , pull out the crown to **POSITION B**. Then turn it counter clockwise to set the date.

After the date has been set, push back to the normal position.

IMPORTANT: Do not make date adjustments when the time on the watch reads between the hours of 9:00pm and 3:00am. The reason is that although a date makes its changeover close to midnight, the gears that make that change happen to engage quite a bit earlier. It takes extra time to disengage completely in the aftermath.

POSITION C TIME SETTING

In order to adjust the time, pull out the crown to the last notch. Then turn it in either direction until the hands indicate the correct time.

UTC FUNCTION / DUAL TIME ZONE

LOCAL TIME
MORTEAU, FRANCE 04:10

DEPARTURE TIME
ATHENS, GREECE 05:10

2-TIME ZONES

The notion of time is capital for French Air & Space Force fighter jet pilots sent on military missions all around the world. On their request, we have equipped this professional tool-watch with a UTC rotating bezel allowing the simultaneous reading of 2-time zones without the need for a GMT movement. Simply rotate the 12 Hour bezel and align the relevant bezel UTC hour markers with the hour hand to a time zone you wish to follow.

MAINTENANCE
OF YOUR YEMA WATCH

A YEMA watch requires little maintenance. However, some precautions must be taken to ensure the durability of your YEMA:

- Ensure that the crown is perfectly screwed down after winding up the movement and/or setting the time and the date. Once the crown is fully screwed down against the case, your YEMA watch is guaranteed waterproof.
- Avoid activities that may expose your watch movement to shocks.
- Never use chemicals to clean your YEMA watch. Use a microfibre cloth and wash the metal, rubber, fabric bracelets and waterproof cases from time to time with a soft brush and soapy water. We recommend that you do not use abrasive or corrosive products (solvents, detergents, perfume, etc.).
- Always rinse your watch with fresh water after it's been exposed to salt water.
