## NILES                                            4100
**Auriel 2.0 Software**

Auriel 2.0 software offers built-in streaming audio services, climate and lighting control, plus remote access. The software update enables any existing Auriel system to easily upgrade to the additional control features. Auriel 2.0 adds control of today's popular lighting control systems to the MRC-6430, including Lutron Caseta and RadioRA 2, Pulseworx, Clipsal, Rako and Z-Wave lighting devices (via the VeraEdge Gateway).

## NUVO                                            5132
**Nuvo Series Two, Four, Six LCR Speakers**

Legrand's Nuvo Series Two, Four and Six in-wall LCR speakers, designed specifically for home theater installations, integrate top-of-the-line components to offer superior audio, high power handling and a lifetime of performance. The sleek and ruggedly-built speakers are also suitable for multi-room audio applications.
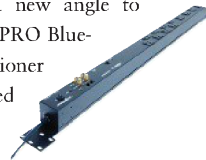

## ON-Q                                            5132
**On-Q radiant RFLC**

The multi-product On-Q radiant RF lighting control platform, with wall-mounted dimmers and switches, a scene controller and plug-in modules, integrates Legrand's patented Tru-Universal technology to provide integrators with an easy-to-install, flexible control system that can be used with all lighting and load types.

## ORIGIN ACOUSTICS                                 5138
**DSP 3-700 Digital Amplifier**

Origin Acoustics releases a cutting-edge three-channel DSP amplifier with a jaw dropping 700W of power. To top that, the amp is also 70V/8 Ohm switchable with easy-to-use front LCD display controls. With 64 presets designed exclusively for Origin's renowned Seasons Landscape Collection and In-Ceiling Director Collection.

## PAKEDGE                                          5346
**NK1-CP Wireless Controller + Bakpak**

With the addition of Bakpak, the NK1 can manage more than just wireless networks—entire networked systems can be configured remotely. IP, ZigBee, and Z-Wave devices can be monitored through Bakpak as well. With Bakpak's self-healing capabilities offline devices often can be automatically restored without any intervention.

## PANAMAX                                          4100
**VT4315-PRO Vertical Rackmount Power Conditioner**

The VT4315-PRO takes a new angle to Panamax's popular M4315-PRO Blue-BOLT-enabled power conditioner and provides a full-featured power management solution without taking up any rack space. Leveraging the same BlueBOLT IP control technology as the Furman Contractor Series, the VT4315-PRO controls 12 outlets in eight banks (four individually controlled outlets and eight in paired duplex banks) for remote control and reboot in real-time or via scheduled commands.

## PEERLESS-AV                                      2902
**UltraView Outdoor TV**

Completely weather-resistant and maintenance-free, Peerless-AV's UltraView Outdoor TVs make it easy and affordable for homeowners to add digital entertainment to their outdoor living spaces. Available in 49, 55 or 65 inches, the TVs are equipped with an LED backlight to provide a full HD 1080p resolution for bright and crisp visuals.

## PHASE TECHNOLOGY   SOUND ROOM 8
**TCE1.5 Ultra Thin Speaker**

Phase Tech's Ultra-Thin Speaker Series is sleek, sexy and loud. Their thin size makes them ideally suited for flat-panel TVs and where space and aesthetics are factors. TCE1.5 speakers provide discreet, three-channel performance out of only two speaker cabinet and boasts Phase Technology's Center Channel Eliminator technology.

## PLANAR-LEYARD                                    3700
**Clarity Matrix MX55HDX LCD Video Wall Display**

The Clarity Matrix MX55H-DX LCD video wall display with the industry's smallest tiled bezel takes the customer viewing experience to a new level by offering virtually seamless LCD video wall installations. The Clarity Matrix MX55HDX display combines the industry's thinnest profile extreme narrow bezel LCD display with superior design, installation and service benefits.

## PLATINUM TOOLS                                   2123
**Net Chaser Ethernet Speed Certifier & Network Tester**

To certify Ethernet speed performance of cable runs, the Net Chaser conducts Bit Error Rate (BER) tests by sending data packets down specified cable runs at defined data rates to check for errors at the maximum throughput of the link. The Net Chaser reports on signal quality that can impact high-speed data transmission by measuring signal-to-noise ratio (SNR).

## PRO AUDIO TECHNOLOGY                             SR5
**SCRS-6c IW & IC speaker**

Though compact at eight inches square and only 3.9 inches deep, the SCRS-6c-iw is a true high-output design. The 6.5-inch professional-grade driver features a common magnet for both the high-output woofer and coaxially mounted, high-sensitivity compression tweeter. This unique magnet design keeps driver depth to a minimum, allowing the SCRS-6c-iw to fit comfortably into a standard two-inch x four-inch stud construction wall.

## QMOTION                                          5154
**Qadvanced Intelligent System (QIS) with ZigBee Control Option**

The QMotion Qadvanced Intelligent System (QIS) is a hardwired shading solution using CAT-5e or CAT-6 cables for both power and communication, with optional ZigBee Home Automation Version 1.2 two-way communication. The QIS has industry leading minimized power consumption with optional adapters for most pre-wired systems, supporting up to 200 devices.
