JUST ADD POWER N464
3G+4+ Tiling Transmitter

The Just Add Power (J+P) 3G+4+ Tiling Transmitter, a breakthrough 4K network video tiler, can be applied to any residential and commercial installations that require multiview functionality, providing video support for resolutions up to full 4K and HDR compatibility.

## KRAMER ELECTRONICS C2919
CA-HM Plug & Play Solution

CA-HM provides a perfect plug & play solution delivering 4K60 4:4:4 HDMI 2.0 signals over long distances. With innovative connectors featuring superior equalizing and signal compensation, it meets the most demanding installation challenges. CA-HM features Kramer's exclusive K-Lock pull-resistant connectors and a LED on the connector indicating successful signal transmission.

L-ACOUSTICS C576
P1 AVB Processor

The P1 three-in-one processor serves as a front-end processor, audio matrix and bridge, as well as a system measurement and tuning platform, all in one convenient, robust package. The P1 takes the complex task of system optimization and streamlines it to a single piece of hardware, fully integrated with the LA Network Manager software platform. As a signal processor with equalization, delay and dynamics, P1's four analog line inputs with premium A/D conversion ensure the utmost sound quality.

LEYARD AND PLANAR C2520
Clarity Matrix G3 LCD Video Wall System

Clarity Matrix G3 combines the thinnest profile ultra-narrow bezel LCD with significant improvements to video processing, installation, management and off-board electronics, delivering a next-generation video wall solution. With simplified installation and service, Clarity Matrix G3 ensures a high performance, cutting-edge video wall system at a lower total cost of ownership.

LG ELECTRONICS C2546
LG 0.6mm Ultra-Narrow Bezel Video Wall

The ultra-narrow bezels of the LG SVH7E combine to create one powerful, impactful video wall with an impressive 1.2 mm bezel-to-bezel width. The display's eye-catching design, IPS technology and unique 0.6 mm bezel width offers an immersive picture that resembles one continuous image rather than a collection of segmented panels.

LYNTEC C1319
Outbound Relay Feature for NPAC System

LynTec's award-winning Networkable Power Automation Control (NPAC) rack-mounted system is enhanced with a new outbound relay control option, allowing control of external devices equipped with contact closures. This extends control beyond the rack area, letting users integrate AVL control of far-flung devices into the browser-based control interface onboard every NPAC.

MAGEWELL C3468
Ultra Stream HDMI Streaming Encoder

The Ultra Stream HDMI stand-alone encoder makes live streaming simple even for non-professional users, enabling them to record or stream high-quality video with one click using on-device buttons or an intuitive smartphone app. The device can stream to Twitch, YouTube, Facebook Live and more, and can record to MP4 files.

MEDIA VISION C1146
Taiden HCS-5335 Compact Digital Infrared Microphones

A digital infrared wireless discussion system, with gooseneck or boundary microphones, ensuring high-fidelity audio without the pitfalls of RF: no need for frequency management, no eavesdropping, no crosstalk. The solution is ultra-portable, PoE Dante-enabled and with web control.

MIDDLE ATLANTIC PRODUCTS C3683
Maximum Power DC Distribution

The newly expanded DC Power Distribution line increases output power up to 300W in 1RU for NA and EU applications. This high-power line can deliver 5, 12, and 24V to an industry-leading number of outlets, eliminating clutter caused by power supplies attached to the growing number of small devices.

NEUTRIK C1642
True Outdoor Protection (TOP) Series Products

Encompassing the powerCON TRUE1, etherCON and XLR product groups, Neutrik's new TOP series products are designed to provide maximum performance under challenging conditions created by moisture, particulate pollution and sunlight.

PEERLESS-AV C2947
Xtreme High Bright Outdoor Displays

A maintenance-free, year-round solution, Peerless-AV's Xtreme High Bright outdoor displays feature a fully sealed IP68-rated design, full HD 1080p resolution for a bright, crisp picture, and IK10-rated cover glass for the ultimate screen protection. Ideal for any application, the displays are available in 43-, 49, 55- and 65-inch models.

PRYSM N1245
LPD 6K Series

The Prysm Laser Phosphor Display (LPD) 6K Series is a first-of-its-kind, interactive single panel large-format display that offers a panoramic image uninterrupted by seams or bezels with power consumption similar to a commercial coffee maker. The displays are shatter-resistant, flexible and offer rollability for ease of transport.

ROLAND C2510
V-60HD HD Video Switcher V1.1

The Roland Professional A/V V-60HD HD Video Switcher V1.1 upgrade introduces support for Roland's RCS Remote Control Software, adds Auto Scan automated video switching and adds Panel Information commands to the already available RS-232 control, with Roland's Smart Tally function for wireless tally via LAN connected IP browsers.
