**JUST ADD POWER 633**  
**3G+ 767DSS Dante Sound System Transmitter**

In addition to distributing Ultra HD and 4K video over a single CAT-5e cable, the 3G+ 767DSS transmitter adds compatibility with Dante and AES67 audio networks, with separate switching of audio and video. The transmitter is the first to support the latest Dante chipset for the delivery of 8 x 8 channels.

**KANEXPRO 1367**  
**HDMI 2.0 Fiber Optic Extender**

The KanexPro HDMI 2.0 Fiber Optic Extender (EXT-4KFIBERPRO) is designed for sensitive, secure and robust transmissions of AV signals through fiber optic connection. The EXT-4KFIBERPRO is engineered to extend 4K/60 Hz up to 984 feet (300 meters) or 1080p up to 1,300 feet (400 meters) with 4:4:4 and HDR.

**KRAMER 2929**  
**Kramer KDS-8**

The KDS-8 is a zero latency, 4K/60 (4:4:4) streamer transceiver using SDVoE technology. Part of the company's AV over IP product line, KDS-8 comes as an encoder in default mode, with the ability to easily switch to a decoder simply at the touch (and hold) of a button. It brings a full range of connectivity options, with the benefit of being future-proof with the power and versatility to handle high data packages.

**LEYARD 3143**  
**TVF Series**

The Leyard TVF Series is a family of fine pitch LED video wall displays available in 1.2, 1.5, 1.8 and 2.5 millimeter pixel pitches. Featuring front serviceability and a creative, stackable design that eliminates cabinet-to-cabinet cabling, Leyard TVF Series reduces the complexity of installation and vertical alignment.

**MAGEWELL 2409**  
**Pro Convert AIO RX NDI Decoder**

Converting live NDI streams into high-quality SDI or HDMI outputs for connection to base-band devices such as monitors and projectors, Magewell's new Pro Convert AIO RX NDI decoder hardware simplifies the use of NewTek's popular AV-over-IP technology in applications such as digital signage, video walls, and image magnification (IMAG).

**MARTIN AUDIO 6743**  
**WPL Line Array**

The Wavefront Precision Longbow (WPL) line array system brings high performance, optimization, flexibility and

control at financially accessible prices to large-scale touring and installation applications. A complete system, it includes external iKON multi-channel amps, automated DISPLAY software and VU-NET control.

**MIDDLE ATLANTIC 2500**  
**Premium+ PDU with RackLink**

The new Premium+ PDU with RackLink delivers comprehensive and secure remote management for AV. The series provides all the great features of RackLink including outlet power cycling/logging, advanced system monitoring and control but now at the individual outlet level empowering integrators to truly optimize a system's energy requirements.

**NEUTRIK 6361**  
**opticalCON Dragonfly Fiber Optic Camera Connector Series**

The opticalCON Dragonfly fiber optic camera connector series offers advanced lens technology for the broadcast and AV markets, ensuring robust connectivity that's easier to maintain than common hybrid camera signal transmission systems with comparable performance. With technology based on fiber lenses and fusion splicing, Dragonfly achieves a strong signal with minimal loss. opticalCON Dragonfly combines the advantages of lens technology and makes it competitive with physical contact connectivity.

**PEERLESS-AV 3429**  
**Smart City Kiosks**

Peerless-AV's all-weather rated Smart City Kiosk is ideal for sharing community information, travel, weather details, wayfinding, advertising, entertainment, and more. The included 49- or 55-inch Xtreme High Bright outdoor display offers full HD1080p resolution for a bright, crisp picture, even in direct sunlight.

**POINT SOURCE AUDIO 5443**  
**CO2 Confidence Collection Wireless Microphones**

The patent-pending CO2 Confidence Collection is a new class of wireless microphones that offers built-in redundancy with dual elements, each measuring only 3mm. The mics integrate two of the company's first-to-market features in miniature microphones: IP 57 waterproof rating, and the "unbreakable" headset boom bendable to 360 degrees to bolster durability.

**PURELINK 1674**  
**VIP-CAM-100 1080p Camera**

Adding to PureLink's robust AV over IP product line, the PureStream VIP-CAM-100 is a 1080p IP camera featuring 20x optical zoom and advanced PTZ functionality. With support for 3G-SDI and IP streaming, the VIP-CAM-100 is ideal for broadcasting high definition video signals in conferencing, live broadcast, and surveillance applications.

**ROLAND 2955**  
**V-600UHD Multi-Format Video Switcher**

The V-600UHD multi-format video switcher facilitates transition to 4K workflows. Roland's multi-format technology, scaling and format conversion allow simultaneous use of full HD and high-pixel-density 4K sources and simultaneous output of 4K and Full HD resolutions. The V-600UHD is loaded with video effects capabilities and ample I/O.

**SHURE 5845**  
**Microflex Complete Wireless (MXCW)**

The Microflex Complete Wireless (MXCW) from Shure combines the all-in-one sound system format, flexible microphone control and meeting management capabilities with the advanced audio and RF technology and control software used in Shure professional wireless systems. It delivers what meeting organizers, system integrators and rental companies have been waiting for: a wireless conference system that just works.

**SNAPAV/EPISODE 3155**  
**Episode IP-Enabled Amplifier**

The Episode 70V IP-Enabled Amplifier is an IP-controllable amp with an included free cloud-managed platform. Our remote management platform, OvrC, provides access to the local UI, where you can update firmware, modulate the amplifier gain, select inputs, set clipping levels, power-cycle, or check the status of your device.

**SONIC FOUNDRY 3661**  
**Mediasite Join**

Available on-premises or in the cloud, Mediasite Join turns recorded content from huddle rooms, Zoom rooms and collaborative spaces into usable, shareable and searchable video. Features include: easy integration with existing web or video conference systems; ability to record and manage everything said and shown during collaborative sessions; recording in H.323, H.239, and SIP.
