5. TVONE LOWERS VOYAGER FIBER-OPTIC EXTENSION PRICE POINT

Video processing equipment supplier tvONE has lowered the price point of the Voyager series, which enables pro AV and digital signage customers to distribute multi-format high-bandwidth signals over fiber.

4. NEWTEK'S NDI, AN OPEN PROTOCOL FOR IP PRODUCTION WORKFLOW

NewTek's Network Device Interface (NDI) is a new open standard for live production IP workflows over Ethernet networks.

3. KALTURA LAUNCHES OTT NOW

Kaltura's end-to-end 'OTT Platform in a Box' provides content owners, broadcasters, and service providers a cost-effective entry point and enhanced functionality.

2. LOW-BITRATE ENCODING UP TO 4K

The Matrox Endea OEM reference platform enables simultaneous multi-stream H.264 encoding/decoding up to 4Kp60. Endea can be used for applications such as video wall controller systems, video extension products, video and matrix switchers, multiviewers, encoding/decoding appliances, and more.

1. PEERLESS-AV'S SMARTMOUNT CARTS & MOUNTS MADE FOR INTERACTIVE CLASSROOM DISPLAYS

Peerless-AV has expanded its line of SmartMount Carts and Mounts to support interactive touch panels that replace traditional chalkboard and dry-erase boards.

Protean Products For Problem-Solving Tech Managers

QSC'S SPA4-60

The What: QSC says that it has developed a powerful yet affordable amplifier series to meet the audio amplification needs in executive boardrooms, conference rooms, and other corporate spaces where multiple speakers are in use. The SPA4-60 made its official debut at InfoComm 2015.

The Wow: Joe Pham, President and CEO, said "Our SPA Amplifier Series

is Energy Star compliant and offers flexibility to integrators with two amplifier solutions. The SPA2-60 offers two channels of Low-Z output into 4 ohm or 8 ohms, but it can be bridged to provide 70V or 100V output. The SPA4-60 is similar but offers more channels enabling elegant solutions like a pair of stereo channels with a single 70V or 100V output, or a Sub/Sat combination. This capability minimizes the amount of inventory and SKUs our customers need to manage for products that represent the majority of their business."
