

## Middle Atlantic Demos Mounting Options

**BOOTH 5412** At CEDIA 2015, Middle Atlantic Products is demonstrating options for contractors to mount trending smaller devices and more creatively manage cables to free up room for more rack-mount equipment. From innovative shelves to the patent-pending Lever Lock Internal Management System, these accessories maximize space utilization within a rack or furniture.

Installers can get an up-close look at four distinct series of rackmount shelves and their ability to mount

multiple small devices while providing cable management and tie down points, in the Legrand booth (5412). The rackshelves on display will include the UMS Series, available in half rack size and featuring a patented mounting pattern.

The Lever Lock system is uniquely designed to facilitate cable management and device mounting within the rack through the use of tool-free bars and accessory mounting plates. With the capability of being placed in otherwise open areas of a rack,

Middle Atlantic is demonstrating new methods for small device mounting

between mounted equipment and the side of the rack for example, this allows installers more space for more traditional rackmount equipment.

Lever Lock accessories are compatible with nine different series within Middle Atlantic's product offering, including racks, furniture and freestanding display mounts.

## BakPak® 3.0 Cloud Management System

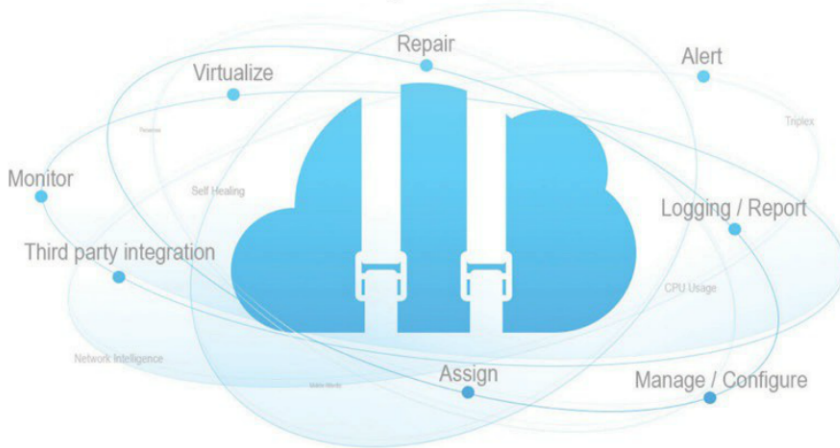

Monitor. Alert. Assign. Repair. Manage.

What if...

You knew the moment something was wrong with your network?

Your network could heal itself?

Your network could self-configure?

## Peerless-AV Features DesignerSeries Wall Mount

**BOOTH 7624** Peerless-AV is showcasing the Peerless-AV DesignerSeries Universal Ultra Slim Articulating Wall Mounts at CEDIA.

One of the thinnest wall arm mounts on the market, the DesignerSeries Universal Ultra Slim Articulating Wall Mount (SUA771PU)

is designed exclusively for 42- to 90-inch ultra thin displays. Featuring dual-arm construction, internal cable management, and an innovative adaptor plate design, the SUA771PU offers ease-of-installation and intuitive adjustments.

For displays 37 inches to 65 inches, the DesignerSeries offers the SUA761PU. Both the SUA771PU and SUA761PU allow for landscape or portrait mounting and boast an I-Shaped Adaptor plate, providing the stability needed to support large ultra thin displays and easier access to inputs and power supplies.
