originacoustics.com

Origin Acoustics is focused on developing the future's architectural and landscape audio systems. From audiophile-grade theater to beautiful and rugged outdoor loudspeakers, we have one of the most expansive lines of audio products for custom installation. Our tool-less mounting system for in-ceiling loudspeakers allows for the fastest install times ever, and our hand-voiced designs bring new life to any recording. That's because our team invented the concept of architectural audio over forty years ago, and that original spirit lives on today in all of our products.
