Powered Outdoor Soundbar in Peerless-AV Spotlight

VENETIAN TOWER SUITE 31-234 Peerless-AV is featuring the Xtreme Outdoor Soundbar at CES 2017.

Producing full range audio (50Hz–20kHz), Peerless-AV's Xtreme Outdoor Soundbar (SPK-060) targets homeowners looking to maximize their outdoor audio experience. The soundbar offers 180 watts of total system power, producing higher quality sound at a louder volume. With an IP65 rating, the device is billed as a true outdoor solution that's able to withstand any climate and weather chang-

es, and is easy to integrate with any outdoor TV.

For ease in use, the soundbar features a universal mounting option that lets it integrate with any display or TV, said the company. A direct wired connection ensure easy setup.

The Xtreme Outdoor Soundbar can also be used as a stand-alone product thanks to its Bluetooth compatibility, which allows for music to be wirelessly streamed from any Bluetooth-enabled device. Pricing will be available at the show.

Your Digital World To-Go With LINK's UNK

B00TH 16734 LINK is designed to fill technology gaps. It combines the capabilities of an LTE hotspot with the large storage of a NAS in UNK, a pocket-sized, weatherproof device. LINK is a powerful tool for IoT and IoE environments, providing

a platform for peer-to-peer and cloud based interactions with the user.

LINK packs a punch into a form factor that is just 2 inches across, 1 inch tall and weighs as little as 2 ounces. It contains an impressive 2TB of SSD storage capacity, allowing files to be universally accessible from any device through LINK's own dedicated broadcast Wi-Fi, cel-

LINK enables users to take their digital world with them and untethers them from a computer or Internet connection. It also uses custom-developed reform security software, in addition to user per-

missions and multiple layers of hardware and software encryption, to give users security and control over their data

Because of LINK, users no longer need rely on a single platform ecosystem to ensure that they're able to move content freely between devices. LINK also removes the need for friends or family to have a device of the same brand or to

3POD: Ultra-Versatile Smartphone & Camera Mount

BOOTH 35227 ZBAM's 3POD is touted as an ultraversatile mount that can be used three main ways: as a camera grip, extension arm or flexible tripod. The folding arm is ideal for POV or follow-cam footage, and makes it easy to capture selfies without the mount appearing in the shot, said the company. The flexible tripod expands to 11 inches, collapses to 5.2 inches, and can carry up to 2.4 kg.

3POD is included in three package choices. The mobile package includes wrist strap, Velcro locking strap, one-quarter 20-inch detachable connecting screw and a Gripit smartphone tripod adapter. The action package includes wrist strap, Velcro locking strap, one-quarter 20-inch detachable connecting screw and a GoPro adapter. The pro full pack includes wrist strap, Velcro locking strap, one-quarter 20-inch detachable connecting screw and both the Go Pro adapter and Gripit smartphone tripod adapter.

The 3POD can be used as a flexible tripod, a selfie stick or an action pole. Pricing and availability will be announced at the show.

be on the same network to share memories. LINK overcomes the painful lock-in to a specific manufacturer's device to play movies and games purchased on their stores, or the need to spend extra money purchasing cellular-enabled devices at an additional cost.

LINK's small, weatherproof design, along with its robust technical specifications, gives users the confidence that their content is protected from the most extreme elements.

Pricing and availability will be announced at the show.
