

Peerless-AV® Showcases New Xtreme™ High Bright Outdoor Display at 2018 Rail Conference, Booth 202

Featuring the highest environmental rating in its class, the Xtreme™ High Bright Outdoor Display expertly provides outdoor communication solutions for transportation applications

DENVER – June 8, 2018 – Peerless-AV®, an award-winning designer and manufacturer of the highest quality audio and video solutions and accessories, is pleased to showcase its latest and most advanced display at the 2018 Rail Conference, June 10-11 at the at Colorado Convention Center, Hall A, Booth 202.

Ideal for rail transportation settings, the Peerless-AV Xtreme™ High Bright Outdoor Display is capable of year-round outdoor digital signage. With Peerless-AV's IP68 rating and a patented Dynamic Thermal Transfer™ system, the display offers the widest operating temperature range available (-31°F to 140°F).

The Xtreme™ High Bright Outdoor Display can be used in a variety of transportation services, whether illuminating a subway platform or in the sky inside of a monorail car. Featuring the highest environmental rating in its class, optic bonding, and an IPS and High TNi panel, the Xtreme™ High Bright Outdoor Display thrives in all positions and applications, even in direct sunlight, without compromising the life of the panel or its color accuracy.

With the Xtreme™ High Bright Outdoor Display, customers are able to create compelling messages in a bright atmosphere while having the capabilities to tunnel through an IP address and monitor their displays' health and wellness, viewing data in real time.

Available in 43", 49", 55", and 65", the Xtreme™ High Bright Outdoor Display offers a robust feature set, including 2500 nits of brightness to combat high ambient lighting conditions, IK10 rated impact resistant cover glass for protection against damage, remote and local monitoring functionality, and more.
