

Peerless-AV® Announces Motorized Cart for Education Environments

Height-adjustable cart offers interactive flat panel display for enhanced, flexible teaching methods

AURORA, Ill. – January 29, 2019 – Peerless-AV®, an award-winning designer and manufacturer of the highest quality audio and video solutions and accessories, today announced the launch of its SmartMount® Motorized Height Adjustable Flat Panel Cart (SR598ML3E) for education applications.

An extension of Peerless-AV's award-winning line of AV carts, the latest version of the Motorized Height Adjustable Flat Panel Cart integrates the use of actuators, making it easy for educators and students to raise and lower touch-enabled displays. Designed specifically for education settings, the cart seamlessly interacts with touch-enabled technology, allowing students and teachers to focus on the content on display while creating a collaborative learning environment.

The Motorized Height Adjustable Flat Panel Cart is ADA-compliant, providing display height adjustment up to 25.6" with the touch of a button. Offering top safety features, the Motorized Height Adjustable Flat Panel Cart is UL962/1678 listed and features a safety limit function, which automatically reverses direction when a collision is detected in an upward, downward, or lateral force.

"Educational environments are relying on interactive tools now more than ever, but schools are limited when it comes to integrating the latest high-priced technology," said Nick Belcore, Executive Vice President, Peerless-AV. "To address this growing need, we designed our SmartMount® Motorized Height Adjustable Flat Panel Cart, an interactive, ADA-compliant solution that offers a wide range of benefits to both teachers and students. With our cart, educational facilities are being given the safety, cost efficiency, and functionality to support all students and teachers."

The Motorized Height Adjustable Flat Panel Cart offers multiple accessories, including a laptop tray, video conferencing shelf, six-outlet surge protector, PC mounting plate, and power cord manager. Focusing on ease of use, the Motorized Height Adjustable Flat Panel Cart features 4" casters for rigidity and stability, and a pre-assembled design with no wiring required – making the installation process seamless.

Peerless-AV's SmartMount® Motorized Height Adjustable Flat Panel Cart is available now through Peerless-AV direct sales representatives and authorized distribution networks.
