

The Road to InfoComm 2016: Peerless-AV® Showcases Innovative Audio-Visual Solutions at Booth C8325

New kiosk enclosures, mounts, video carts, wireless audio solutions, and more on display

LAS VEGAS – June 8, 2016 – Peerless-AV®, the leader in innovative audio and video solutions and accessories, is pleased to announce its showcase at InfoComm 2016. Peerless-AV will be commemorating its recognition as the official outdoor display provider of the Daytona International Speedway with a Daytona 500-themed booth (**Booth C8325**), where the company will highlight its Portrait Kiosk Enclosures, outdoor displays, mounts, custom kiosk solutions, including the Volta Electric Vehicle Charging Stations, and more.

This year Peerless-AV will also celebrate its attendance as the official sponsor of the Food Truck and Beer Garden located directly outside the Las Vegas Convention Center in the parking lot. Show attendees will have the opportunity to partake in specialty foods and drinks with Peerless-AV's digital signage presenting their lunch options.

As a thought leader in the industry, Peerless-AV's Director of Emerging Technologies, Todd Mares, will lead an on-floor seminar on *Wireless AV Integration and New Technologies*, as well.

Attendees visiting Peerless-AV's booth can expect to see the following products on display:

Digital Signage Mounts

Peerless-AV mounts at the booth include the award-winning SmartMount® Full Service Video Wall Mounts with Quick Release. Models from the line being shown include the [*DS-VW765-LAND*](#), the [*DS-VW765-LQR*](#), the [*DS-VW755S*](#), and the [*DS-VW795-QR*](#) for large displays. Peerless-AV's new *Supreme Full Service Video Wall Mount (DS-VW775)* and [*Universal Modular LED Wall Mounting System*](#) will also be on display. These mounts offer integrators the ability to design either LCD or LED video walls with ease and flexibility.

Mounts

Reflecting remarkable form and function, additional mounts from the SmartMount® line, including the *SmartMount® Universal Articulating Wall Mount (SA752PU)*, the *SmartMount® Universal Tilt Wall Mount (ST650)*, and the *SmartMount® Digital Menu Board Mount with Height and Depth Adjustment (DS-MBZ647L)*, will be showcased.

Other featured mounts include the *DesignerSeries™ Universal Ultra Slim Articulating Wall Mounts* ([SUA747PU](#) and [SUA761PU](#)), the *Flat Gondola Mount* ([DSF210-GFC](#)) for Samsung DB10D displays, projector mounts ([PJF-EXB](#) and [PRG-EXB](#)), modular floor-to-ceiling kits, and more.

Carts

Peerless-AV's video carts on display include the *SmartMount® Flat Panel Video Conferencing Cart* ([SR555E](#)) and the *SmartMount® Cart for use with the Microsoft® Surface™ Hub* ([SR598-HUB](#)), the perfect mobility complement to the much anticipated Microsoft® solution. Cost-effective, safe, and aesthetically pleasing, Peerless-AV's carts are an ideal solution for corporate and education environments. In lieu of purchasing multiple displays for multiple rooms, users can order one display and create a mobile solution, saving time and money, while making telecommunication a breeze. The carts are UL® tested and certified, ensuring safe mobility without the fear of tipping or structural failure.

Kiosks

At the booth, Peerless-AV will showcase its award-winning line of Portrait Kiosk Enclosures, including the [KIPC546](#). These floor-standing enclosures offer elegance unprecedented in the large format kiosk sector, with lean frames and a small footprint along with a robust feature set.

Offering variety in kiosk solutions, Peerless-AV will showcase the *Xtreme™ Back-to-Back Outdoor Kiosk* ([KOP547B-XTR](#)), the *Xtreme™ Outdoor Landscape Kiosk with Touch* ([KOL555-XTRTO](#)), the *Xtreme™ Outdoor Digital Menu Board Kiosk* ([KOP547-XTR-1](#)), the ADA-compliant *Landscape Kiosk Enclosure* ([KILH542](#)), the *Wall Kiosk Enclosure* ([KIP648](#)), the *LG 3-Sided Ultra Stretch Portrait Kiosk*, a *double stacked kiosk*, and the *Outdoor Totem Kiosk* ([KOP575](#)).

Peerless-AV will also show custom kiosks, including its [Volta Digital Hybrid Charging Stations](#).

Audio/Video Solutions

Wireless innovations on display include the *PeerAir™ Pro Wireless AV Multi-Display System* ([HDS300](#)). When running wires isn't possible, the PeerAir™ Pro, with an extended wireless distance of 201 feet, is the ideal solution. It can multicast Full HD 1080p and passive 3D signals wirelessly to up to six displays, and with a pass thru port on the transmitter, a seventh display can be wired locally. Also on display at InfoComm is the *PeerAir™ Wireless HD Multimedia System* ([HDS-WHDI100](#)), with a wireless distance of 100 feet.

Outdoor Displays

Ideal for various digital signage applications, Peerless-AV's *Xtreme™ Outdoor Daylight Readable Displays* ([CL-47PLC68-OB](#)) are 100% sealed and engineered to endure the outside elements in all seasons. Ventless with full 1080p HD flatscreens, the Xtreme™ displays are designed to withstand extreme heat (+140°) and extreme

cold (-40°) without damaging the LCD. Relying on a patented Dynamic Thermal Transfer™ system to cool or warm internal components during extreme weather, the Xtreme™ displays remove the need for external filters, vents, and exhaust fans. In addition, the patented design completely seals all internal components as well as the cable entry – protecting the display from rain, sleet, snow, dust, insects, and even pressure washing.

Far surpassing ordinary outdoor displays, the Xtreme™ displays have achieved IP68 and NEMA 6 ratings with true ease. The displays are maintenance free, cost-effective, and reliable even in the harshest of conditions. For residential and light commercial settings, such as bars and restaurants, Peerless-AV will be debuting the new *UltraView™ Outdoor TV* ([UV491](#)).

On Wednesday, June 8 from 12:30 PM – 2:00 PM, Peerless-AV’s Director of Emerging Technologies, Todd Mares, will be leading an InfoComm University seminar focusing on “Wireless AV Integration and New Technologies.”
