

Peerless-AV® Announces Availability of New Line of Portrait Kiosk Enclosures

The award-winning customizable new line offers elegant floor-standing indoor enclosures for displays measuring 40"-80"

AURORA, Ill. – February 9, 2016 – Peerless-AV®, the leader in innovative audio and video solutions and accessories, is pleased to announce the availability of its new line of **Portrait Kiosk Enclosures**.

Named a 2015 InfoComm Digital Signage Best of Show Award Winner, Peerless-AV's line of portrait kiosk enclosures offer elegance unprecedented in the large format kiosk sector. The line incorporates a robust feature set while maintaining a modern, curvaceous, and slim aesthetic look with lean frames and a small footprint. From wayfinding to entertainment to self-service solutions, the new line of portrait kiosks "Get it Right" in any indoor application, housing 40"-80" displays in portrait orientation.

"In designing our new line of Portrait Kiosk Enclosures, we focused heavily on creating stylish kiosks that incorporate the curved aesthetic that consumers have grown accustomed to with their personal electronics," said Brian McClimans, Vice President, Global Business Development, Peerless-AV. "In addition, with a lightweight, aluminum frame design, our Portrait Kiosk Enclosures are unparalleled to anything else in the kiosk space today."

To meet the needs of any digital signage application, the easy-to-install and affordable line of portrait enclosures offer customization through RAL colors or client logos with vinyl or digital printing. The enclosures also feature stereo speakers and amplifiers, Wi-Fi, NFC, and proximity sensors, ambient lighting, and tempered glass or Lexan surfaces with anti-glare treatment.

Dependent on the needs of the user, photo and video equipment can be incorporated to allow for interactivity. The kiosk enclosures are available in multiple configurations, too, such as using two displays – one on each side.

Pushing the boundaries of form, function, and ease of integration, the sleek kiosk enclosures can be customized through Peerless-AV's KioskBuilder™ and Kiosk Partner Program, allowing integrators to streamline the installation process by eliminating the need to source components from multiple vendors.

Peerless-AV's line of Portrait Kiosk Enclosures are currently available through Peerless-AV direct sales representatives and authorized distribution network.
