## **Peerless-AV UV2**

The Peerless-AV 47-inch UV2 outdoor TV is ideal for homeowners looking to enhance their outdoor entertainment and living space. An all-season solution, the 47-inch UV2 outdoor TV features an integrated thermal management system allowing for operation in severe temperatures ranging from -24 degrees Fahrenheit to 124 degrees Fahrenheit. With an IP65 rating, the 47-inch UV2 Outdoor TV is water and dust resistant, which means homeowners do not need to worry about covering the TV during inclement weather or keeping the TV away from the pool or hot tub during the summer months.

The 47-inch UV2 Outdoor TV is virtually maintenance-free with no filters to clean or replace. This also helps to keep out any dust and insects as well. The TV's aluminum construction provides the ultimate defense against weather, discoloration, and impact. It also comes equipped with an ambient light sensor that automatically adjusts brightness to best match the lighting conditions. Anti-reflective impact-resistant safety glass protects the TV screen against damage, too.
