Panasonic 4K LQ70 Series Display

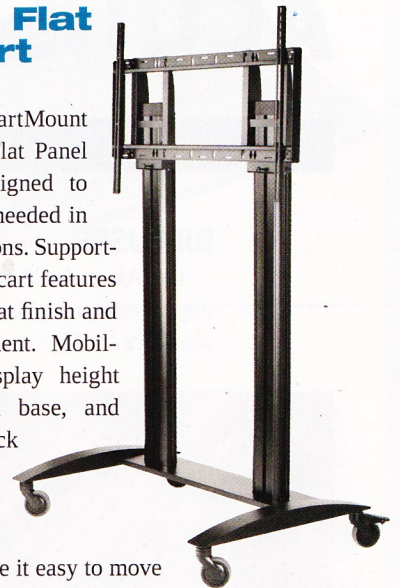

These 4K backlit LCD display produce stunningly sharp images in a streamlined form factor. The 98in. and 84in. displays are ideal for a number of growing 4K applications including eye-catching digital signage for

rental and staging. These displays are equipped with the company's next generation of image enhancement technology. This new technology up-converts non-4K sources to a higher level of picture quality, transforming ordinary full HD resolution and a variety of PC signals into breathtakingly vivid images. They feature a protective front glass for public use, a reinforced frame for flexible install and support 4K content over HD BaseT.

SmartMount Flat Panel TV Cart SR598

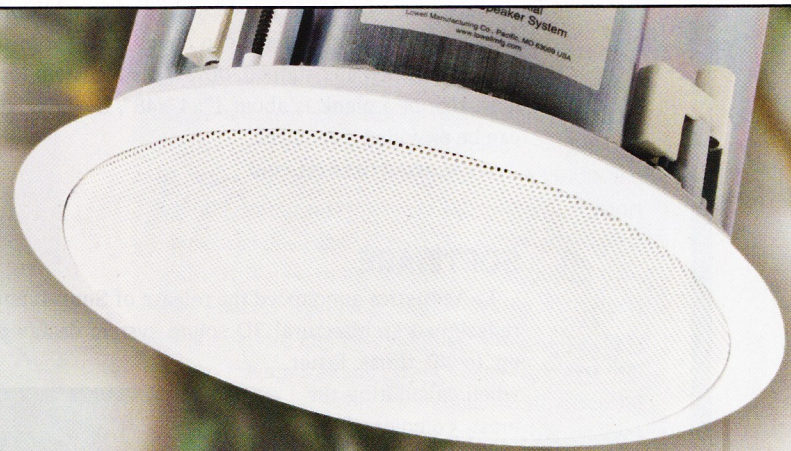

Part of Peerless-AV's SmartMount line of carts, the SR598 Flat Panel TV Cart has been redesigned to include all of the features needed in rental and staging applications. Supporting 55in. to 98in. TVs, the cart features a textured black powder coat finish and integrated cable management. Mobility, appealing design, display height adjustment, pre-assembled base, and UL certification ensure quick assembly while providing a ridged, but attractive, structure that fits into any décor. The 4in. castors make it easy to move from room to room while the UL certification ensures that it can be done with safety in mind.

Lowell HEARD EVERYWHERE®

the *Essence* of quality sound

Experience the "ES Series" in-ceiling speaker systems — delivering full frequency response for music and excellent intelligibility for speech in a quick-install package. The 6.5" coaxial driver (Model ES-62T) and 4" dual-cone driver (Model ES-4T) include a mounted transformer, zinc-plated enclosure, grille, C-ring and support rails. The wide dispersion pattern can actually reduce the number of speakers required for even coverage, making the ES the "quality plus value" choice for both commercial and residential installations.

Model ES-62T
