

# #Winning With Innovation

## SCN'S INFOCOMM 2018 INSTALLATION PRODUCT AWARDS WINNERS

The winners of *Systems Contractor News'* 2018 SCN InfoComm Product Installation Awards were announced at InfoComm 2018; these awards showcase the most innovative commercial AV products of 2017.

Manufacturers nominated their most innovative products from 2017, and a panel of judges—all experienced integrators—read through each and every entry, choosing no more than three finalists per category. The winners were chosen by *SCN* readers via online voting.

Megan A. Dutta, *SCN's* content director, and Adam Goldstein, *SCN's* publisher, presented the awards on June 5 during a pre-show ceremony at the Las Vegas Convention Center. "Winners of the 2018 SCN InfoComm Awards demonstrated a desire to move the industry forward through unique innovations," said Dutta. "I'm looking forward to seeing the changes these products bring about in the industry."

Shown below are some of the winners from the 2018 SCN InfoComm Installation Product Awards Ceremony (not picture: Crestron and Symetrix). Congratulations to this year's winners!

Barco

Blackmagic Design

Luxul

Peerless-AV

RTI

Screen Innovations

SurgeX

WolfVision

Yamaha
