

Winning Big in Las Vegas

LAS VEGAS, NV—The annual *SCN* InfoComm Installation Product Awards were presented during InfoComm 2016, honoring the companies and their products that earned the title of “Most Innovative” this year. A panel of integrators and consultants scrutinized over this year’s impressive list of nominees before selecting finalists for each category, and *SCN*’s readers voted for the winners based on this list.

SCN editor Lindsey Adler and associate editor Matt Pruznick announced the winners and presented the awards on Tuesday, June 7 during a pre-show ceremony at the Las Vegas Convention Center. Be sure to watch for product award nomination information early next year for the 2017 *SCN* InfoComm Installation Product Awards.

Shown below are some of the winners from the 2016 *SCN* InfoComm Installation Product Awards ceremony (Not pictured: Meyer Sound, Chief, LG, Da-Lite, Kramer, and Barco). Congratulations to this year’s winners!

Fabian Stumpf, project manager, sales/HR at AV Stumpf.
