use. Peerless-AV's UltraView Outdoor TV allows homeowners to enhance their outdoor living spaces at a fraction of the cost of other outdoor displays on the market. Yet, at this price point, Peerless-AV's emphasis on quality continues to shine with a focus on excellent visuals and sound with failsafe weatherproofing.

## **PETCUBE, INC.**

### **Petcube Bites**

Petcube Bites is an all-in-one pet camera with built-in treat dispenser, so people can reward their pets and stay connected 24/7 via a smartphone app. With a wide-angled view, features include 1080p HD video, digital zoom, two-way audio, sound and motion alerts, night vision, video cloud recording, and automated treat replenishment system using Amazon dash technology. Petcube Bites has a clean, rectangular design, best-in-class engineering, high quality materials, and interactive features. It is remotely controlled via the Petcube App, compatible with iPhone and Android. The app has social features — users can share media to their favorite social networks, and connect with a global community of pet lovers and their pets real-time. We've all heard stories of pet separation anxiety and damage that anxious pets can do in the home. Petcube provides an on-the-go petcare solution by providing owners a way to spy on their pets, interact in real-time, reward and train them for good behavior. Petcube Bites enables a sustainable way to stay connected with your pet 24/7 when you're time and resource constrained.

### **Petcube Play**

Petcube Play is the next-generation of the Petcube Camera, the original, best-selling pet camera. The wide angled camera comes with advanced features, including clear 1080p HD video, 24/7 video recording, digital zoom, two-way audio, sound and motion alerts, and night vision. Petcube Play promotes real-time play and exercise with a built-in, opti-

mized laser toy, and auto-play mode enables regular playtime when owners' busy schedules get in the way. Petcube Play has an iconic "cube" design, best-in-class engineering, high quality materials, and interactive features. The camera is remotely controlled via the Petcube App, compatible with iPhone and Android. The app has social features — users can share to their favorite social networks, and connect with a global community of pet lovers and their pets real-time. We've all heard stories of pet separation anxiety and damage that anxious pets can do in the home. Petcube provides an on-the-go petcare solution by providing owners a way to spy on their pets, interact in real-time, play and exercise them to promote a healthier lifestyle. Petcube Play enables a sustainable way to stay connected with your pet 24/7 when you're time and resource constrained.

## **PICOBREW**

### **Pico**

The PicoBrew Pico is the world's first automated craft beer brewing appliance. It brews 5 liters of fresh, craft beer in about two hours with a grain-to-glass serving time of as little as one week. An Internet-of-things device, it also integrates RFID technology and access to our online BrewMarketplace to enable customers to easily brew award-winning craft beer recipes from a seemingly endless supply of breweries around the world. Our craft beer recipes, also called PicoPaks, are eco-friendly, biodegradable ingredient kits filled with all natural ingredients such as grains and hops fashioned to the specifications of our brewery partners. We already have more than 50 craft beer recipes available on our online BrewMarketplace out of the more than 200+ recipes licensed from our 150 brewery partners. We are changing the way people think about beer production, distribution and consumption. There are over 4,500 craft breweries in the U.S. but
