BACK-TO-SCHOOL PRODUCT SHOWCASE

Anthro's Yes Cart for Mini-laptops

www.anthro.com/charging/charging-solutions/charging-carts/laptop-charging-cart
With Anthro's YES Cart for Mini-laptops, one size fits all Chromebooks up to a 13" screen – and even some 14"! Set the cart's bay width and shelf height for your device, then reconfigure when it's time for new devices. Mix and match with tablets, e-Readers, and hand-helds for even more flexibility. All this in a space-saving footprint and a Lifetime Warranty. The YES Cart truly is the last cart you'll ever buy.

AGParts Worldwide

www.chromebookrepairsandparts.com
The premium parts supplier for Education Technology Programs. 15+ years of knowledge and experience in the mobile parts industry ensures that we provide you with the superior customer service you deserve as well as high-quality parts for the various chromebook, laptop and tablet models. We accept all school PO's and maintain an inventory level that allows us to ship most orders the day they are received. Reach out to us at 724-838-9588.

AVerCharge C30i

WWW.AVERUSA.COM
The AVerCharge C30i charging cart can accommodate up to 30 Chromebooks, laptops, or tablets with up to a 14" sreen. Intelligent charging automatically ensures all devices are safely and evenly charged. Slide-out shelves with extra-large slots add ease and convenience to device management. Furthermore, at only 27" wide, the C30i offers a small footprint. Judges raved over energy-saving features, noting that the system stops charging when everything in the cart reaches full battery and then checks every 30 minutes to make sure devices are still charged. They also appreciated the rubber mats, medical casters, and drawers, all of which help keep the devices save during transportation.

Boxlight's The DeskBoard

www.boxlight.com/DeskBoard-mobile-cart
The DeskBoard is a portable, height and tilt adjustable desk surface made interactive via attached ultra-short throw interactive projector. The DeskBoard is the ideal solution for schools that need mobile, customized interactivity as it can be used as an interactive screen or as an interactive desk with the ability to raise, lower, tilt, and move from classroom to classroom. Whatever the situation, whatever the lesson, it is always in the right position.

www.casioprojector.com
Geared for educators, Casio's XJ-UT310WN Ultra Short Throw LampFree® projector offers WXGA resolution, remote access from a smartphone and a variety of features for easy classroom integration. Powered by Casio's LASER & LED Hybrid Light Source, the XJ-UT310WN is low maintenance, has one of the shortest throw ratios in the industry – 0.28:1, offers brightness up to 3,100 lumens, has a dust-resistant design and provides significant savings over the lifetime of the product. Price: $1,999.99

Casio EcoLite XJ-V1 Projector:

www.casioprojector.com
Powered by its LASER & LED Hybrid Light Source, Casio's EcoLite XJ-V1 is 100 percent LampFree®, which means schools no longer need to replace expensive and hazardous mercury lamps. Casio's eco-friendly, low maintenance projector offers an estimated 20,000 hour lifespan with minimal brightness degradation and continuous operation. It also features a throw ratio of 1.54-1.7: 1, brightness up to 2,700 lumens, and consumes half the power per unit than traditional lamp-based projectors. Price: $699.99

Comcast Business

http://business.comcast.com/
Comcast Business helps to transform schools through technology. Ensuring that every teacher, student and administrator can benefit from educational advances made possible through technology requires a robust communications infrastructure. Comcast Business offers high-performance Ethernet solutions that scale from 1Mbps to 10Gbps, connecting schools for district-wide communications and seamless delivery of data-intensive content like e-textbooks, smart boards, video, and distance learning – all backed by 24/7/365 service. And we offer E-rate eligible services.

Door 24® Plus

URL: www. i-ready.com/iPad-apps
Door 24 Plus is a math fluency app designed to help develop students' skills in both fact fluency and computational fluency. Door 24 Plus provides targeted practice in the use of basic facts, number sense, and algebraic thinking. Door 24 Plus sends students on two mathematical adventures depending on their level: Snargg Splatt or Victor Fixer. Join Sweet T and friends as they explore the mysteries behind Door 24. Download free from App Store.

Dig-It! Games

http://www.mayan-mysteriesgame.com/Mayan_Mysteries
Mayan Mysteries is an immersive social studies game that blends history and problem-solving into a unique learning experience. It includes accurate historical information and cross-curricular content, standards-aligned and packaged specifically for middle schoolers. Players participate in reading comprehension, problem-solving and mini-game challenges at eight modern archaeological sites; they also travel to the past, giving them a unique insight into ancient life. An integrated Teacher Management System for the online Classroom Edition allows educators to track student progress, while the iPad single-user version can be individually downloaded for play from the App Store.

ELMO Elite P2MP

The ELMO Elite P2MP classroom solution takes your lessons to a new height. The ELMO Elite System allows you to distribute your digital lessons in real time from your host device to every student's device, creating a 1:1 learning environment for each student. The ELMO Elite P2MP Max reaches up to 40 students and can integrate every piece of technology from the ELMO Document Camera to Tablets, Laptops and Smartphones. ELMO Elite broadcasts its own secure WiFi for ease of use and student security.

Filewave

https://www.filewave.com/
Since 1992, FileWave has provided education, enterprise, and government institutions around the world with enterprise level cross-platform systems and mobile device management software to assist IT teams throughout the entire lifecycle process of imaging, deployment, management and maintenance. FileWave's all-in-one, highly scalable software solves the many challenges of managing a diverse and growing population of users, devices, and content by ensuring IT teams have a comprehensive solution that supports both client (desktop) and mobile devices across Mac, Windows, iOS and Android.

FSR's MiniVU

http://www.fsrinc.com
FSR introduces the MiniVU, a smaller more compact version of their award winning HuddleVU collaboration system line. The reduced footprint is perfect for small group spaces with 2-4 users. Collaborative learning technologies are enhancing the way students absorb, retain, interact with and relate to information. Designed specifically for educational environments in mind, FSR's HuddleVU family of products are flexible packaged systems that are intuitive to use, built to last in high use student centered areas and that don't require software downloads or wireless access.

Peerless-AV's SmartMount® Video Carts

www.peerless-av.com/
Peerless-AV's line of SmartMount® video carts is cost-effective, safe, and aesthetically pleasing. In lieu of purchasing multiple displays for classrooms, schools can use one display and create a mobile solution, saving time and money. Offering lockable storage, multiple configurations, cable management, and quick assembly, the carts create an efficient solution for 32»-98» displays. All new SmartMount® carts are UL tested and certified, ensuring safe mobility without the fear of tipping or structural failure.

Powergistics

www.powergistics.com
Powergistics is a Chromebook, Laptop and Tablet charging station that solves your device storage issues, with a small footprint and open design.

Scantron Analytics

http://www.scantron.com/scantronanalytics
According to the Bill and Melinda Gates Foundation, 67% of educators are dissatisfied with their data analysis solution. They have static "snapshots," but no easy way to answer specific questions. Scantron Analytics can change that through its interactive dashboards, smart filters, and lightning-fast performance, powered by Qlik. You can immediately answer your questions about students, assessments, and classes with a single click, making it easier to adjust instruction for improved achievement.

Sharp AQUOS BOARD™ Interactive Display System

Whether in a classroom or a meeting room, it can sometimes be a challenge to keep everyone focused and engaged. That's where the Sharp PN-C703B AQUOS BOARD interactive display system comes in. This large, Full-HD 70' Class (69.5' diagonal) touchscreen monitor lets you display and manipulate a variety of information with ease and precision. It is the most affordable AQUOS BOARD model ever.

Sungard's eSchoolPLUS 4.0

http://sungardk12.com/
eSchoolPLUS 4.0 is the next-generation student information system that works with you to support student achievement. Built for the future, this solution provides at-a-glance insights, promoting collaboration between administrators, teachers, parents, and students. If your student information system is only storing data, it's operating in the past. eSchoolPLUS 4.0 creates a new paradigm for student information by providing innovative, action-oriented support for student achievement.

Stoneware

www.stone-ware.com/lanschool/trial
Established in 2000 and acquired by Lenovo in 2012, Stoneware delivers educational solutions that help schools, teachers and students address today's technology challenges. Stoneware's LanSchool™ classroom management software enhances the learning experience by enabling teachers to easily manage classroom technology and monitor student involvement. Tools such as thumbnail monitoring, electronic assessment, voting, screen sharing, remote control, screen blanking, and web and app limiting help teachers know that technology is being used productively in a classroom. For more information on LanSchool, or to download a free 30-day trial, visit www.stone-ware.com/lanschool/trial.
