

## CHIEF CONNEXSYS VIDEO WALL MOUNTING SYSTEM

Chief's ConnexSys Video Wall Mounting System solves the most common installation problems: speed, alignment, serviceability, and rigidity. Strut channel install aligns an entire row and removes the need for spacers. Six points of PowerZone tool-free adjustment are all found in one location. Depth can be set anywhere between 4 to 7.3 inches (102-186mm). RapidDraw Display Release gives access to any display. The mounts extend up to 13.7 inches (348 mm). Added rigidity prevents accidental screen shift.

## NEC UN551S

With just 0.9mm of inactive border around the edges, the NEC UN551S delivers a more consistent and seamless video wall. The 55-inch displays feature professional-grade, S-IPS anti-glare panel technology that allows for less color shift and superior color uniformity, making them perfect for broadcasters, command and control, and retail customers. The UN551S also features a full commercial build with a steel chassis, commercial-grade cooling fans, and temperature sensors, along with direct-LED backlighting.

## ICS WC5000BD-11 VIDEO WALL PROCESSOR

Capable of up to 40 video outputs and 64 inputs, the ICS WC PC-architecture-based video wall processor family provides flexible and economical processing capabilities for your video wall solution. The WC5000BD-11 is designed for 24/7 operation with emphasis for reliability, ease-of-use, performance, and flexibility. Capture signal options include DVI, HDMI, SDI, component, DisplayPort, H.264 and VGA. The WC family also supports 4K and HDCP. All ICS products are TAA Compliant.

## PEERLESS-AV SMARTMOUNT SUPREME FULL SERVICE VIDEO WALL MOUNT

The latest addition to the award-winning SmartMount DS-VW line, Peerless-AV's SmartMount Supreme Full Service Video Wall Mount (DS-VW775), is both lighter and easier to install and service than ever before, featuring new lateral micro-adjustments, convenient serviceability with a pop-out mechanism, and usability in both portrait and landscape orientations.

## LEYARD DIRECTLIGHT LED VIDEO WALL SYSTEM

The next-generation Leyard DirectLight LED Video Wall System is a family of seamless, ultra fine-pitch LED video wall displays. Available in 0.9-, 1.2-, 1.5-, and 1.8-millimeter pixel pitches, Leyard DirectLight features a 27-inch cabinet with a 16:9 aspect ratio. Leyard DirectLight includes a mounting system for wall mounting and is fully front-serviceable. With an off-board design and redundant power supplies, Leyard DirectLight is less than 4 inches deep when installed, delivering industry-leading resolution and reliability.
