Instructions

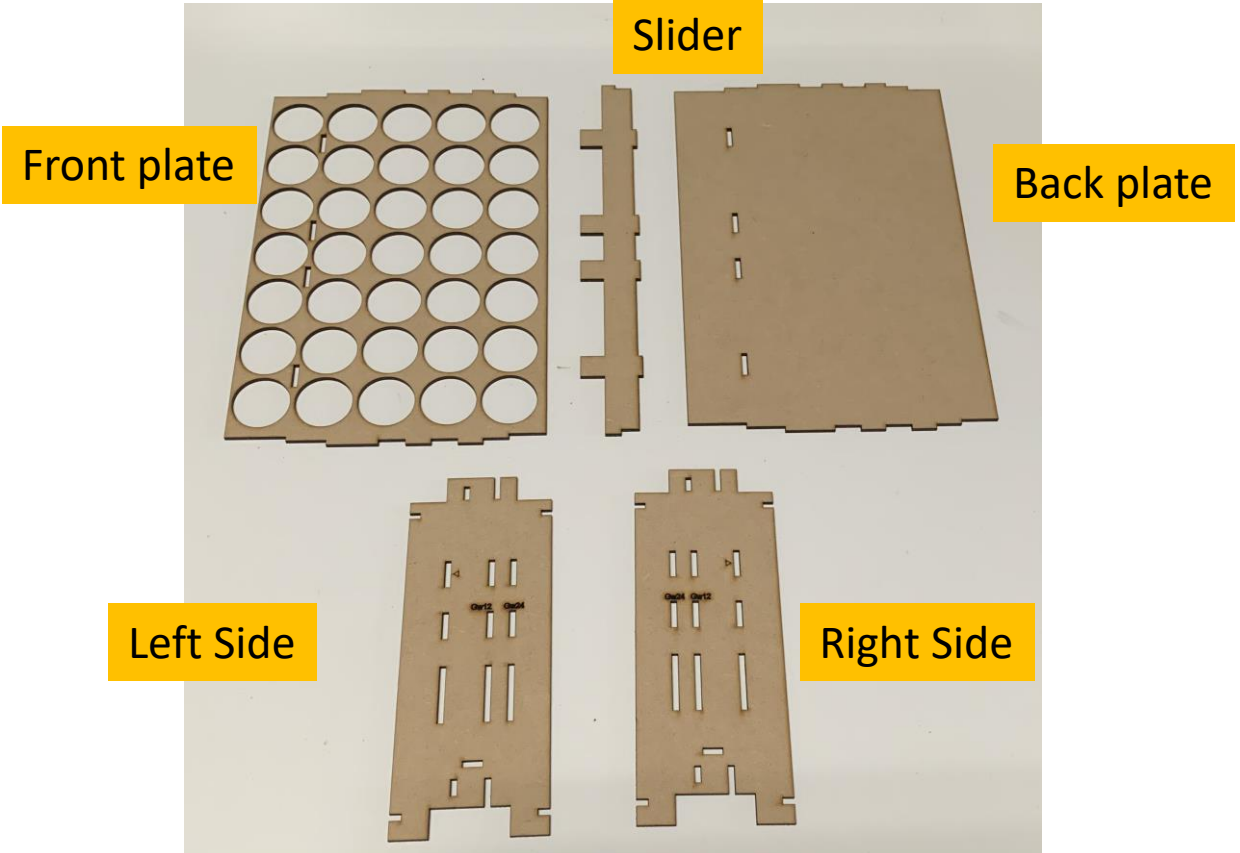

AF-9029

Hobby Paint Stand vertical GW compatible

3. The front plate aligns to the triangle and is in a fixed position  
The back plate can be aligned for either 12ml GW bottles or  
24ml GW bottles. Attach front plate, slider and backplate to the  
right side

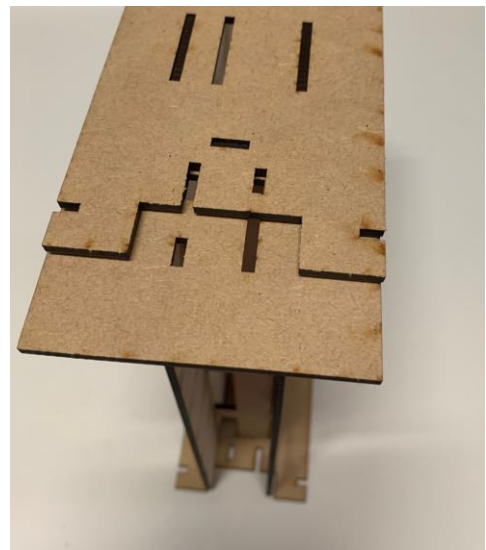

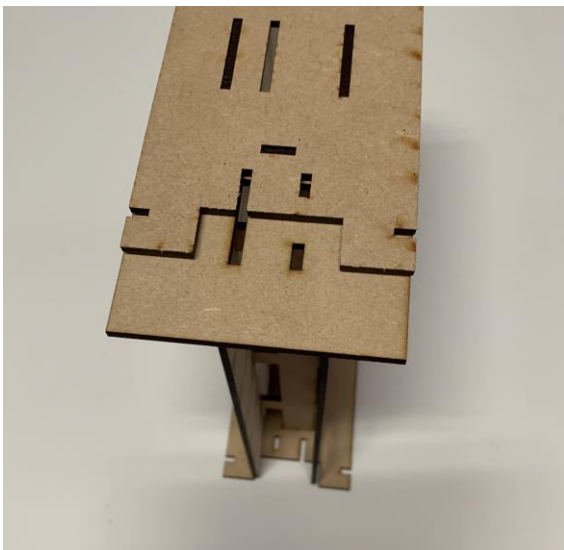

4. Glue the left side on as shown below.

5. Attaching the C connector plate as shown.

**CORRECT**

**WRONG**

6. The large C clip should be able to fit in like this on the left side

7. The C connectors allow the system to be added to the base and also vertically.
