

ETYMÖTIC

GunSport•PRO®

High-Definition Electronic Earplugs

Hunters • Shooters • Guides and Instructors

GunSport•PRO high-definition electronic earplugs are designed for shooters in the field or at the range. They enhance awareness and improve distance detection up to five times.

Clear, high-definition sound quality
GSP electronic earplugs use Etymotic's ACCU•Technology® with high-definition balanced-armature drivers, high-sensitivity microphones and wide-dynamic-range compression signal processing.

Hearing enhancement —
amplifies up to 5X

Blast protection

Adaptive noise reduction
when noise exceeds safe levels

Allows natural hearing

NRR = 25 dB

1-year warranty

In the box:

- 1 pair electronic earplugs
- Assortment of ACCU•Fit™ eartips
- Flexible neck cord
- Filter tool and ACCU•Filters™
- Cleaning tool
- #10 Batteries
- Protective case

Adaptive Noise Reduction

GunSport•PRO circuitry automatically changes output levels as sound input levels change. Hearing is natural, as if nothing is in the ears, until sound exceeds safe levels. As sound levels increase, earplugs gradually provide 15-dB sound reduction. Natural hearing is restored when sound returns to safe levels.

Safe-in-Sound Award for Innovation in Hearing Loss Prevention

Awarded jointly by NIOSH and the
National Hearing Conservation Association
