

# WIRING DIAGRAM FOR ALUMA PRECISION BASS

Directions: Tie white and green wires together (ground) and solder to volume pot  
Take orange wires (hot) and connect to switch.

250k pots recommended for better tone  
.022mfd cap recommended

Note:  
Each Aluma - P coil is an independant humbucking Alunitone  
To change phasing: Tie orange and green leads together and use white/black striped for hot.
