

Vibe
Bluetooth® Earphones

Safety Information Card

Thank you for purchasing vodo vibe earphones. **Please take a few minutes to carefully read these instructions before beginning to use this product.** Make sure to take care of your vodo vibe earphones since they contain electronic components that can be damaged.

Warning

Please make sure to turn the volume down before connecting the earphones in order to avoid injury and/or damage to your hearing or ears. Adjust the volume only after the earphones are in place. Avoid listening at high volumes for prolonged periods as this may cause injury to your ears and/or result in permanent damage to your hearing.

Bluetooth®

To turn on and off Bluetooth® on your vodo vibe earphones, press the power button.

Batteries

Do not replace the battery, you can damage the battery which can cause overheating and injury.

Cable and connector

Do not place the charger near you while plugged into a power source as it may cause injury or harm. Do not sit or sleep on the connector or place it under your pillow, blanket or body.

Small parts and children

Vodo earphones come with several small parts that can cause a choking hazard or injuries to small children. Please make sure to keep them away from small children.

Device Interference

Since vodo vibe earphones contain components and radios that emit electromagnetic fields, they can interfere with defibrillators, pacemakers and other devices. You must maintain a safe distance between your earphones and any such medical devices. Check with your doctor or a medical professional prior to use if you have any questions or concerns.

Danger while driving

It is not recommended to use vodo vibe earphones while driving. It is also illegal in some jurisdictions. Check local, state and/or federal laws to confirm.

Disposal

This symbol means that this product should not be disposed with your household trash. Please make its disposal in accordance with local environmental laws and guidelines.

Maintenance of the earbuds

Please make sure to clean your earphones regularly with a soft, damp cloth. Dry the earphones with a soft cloth. Doing so may prevent ear infections and/or irritation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the provided instructions, may cause harmful interference to radio communications. There is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio, television or other receptions, which can be determined by turning the equipment off and on, the user should attempt any of the following to address any interference: a) increase the separation between the equipment and the receiver; b) connect the equipment to an electrical outlet on a circuit different from the one which the receive is connected to; c) consult a dealer, retailer or technician of your choosing to assist.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
