15.6" Open Frame, Wall and Desktop Display

Mimo Monitors offers the M Series with black housing, open frame, desktop or wall mountable monitor. This display is made with a long-lasting molded metal product cycle-enclosure that makes it perfect for applications that intend to be integrated into other equipment or enclosures, sitting on a desk or wall mounted. Its design makes it perfect for any industrial, kiosk, retail or commercial needs the customer may have. The M Series displays are built so future generation panels can be phased in without the need for any external changes, making it the perfect product for now and for the future.

Features:

- 16:9 aspect ratio
- Multi-point capacitive touch screen optional (M15680C-OF-B)
- Windows plug & play touch controller, USB
- Non-touch version has 2.4mm chemically strengthened glass in place of the PCAP sensor for added durability (M15680-OF-B)

Applications:

- Kiosk information system
- Gaming and entertainment
- Light industrial shop-floor automatic operation
- Desktop applications
- Wall mount applications
