85/85/85/85

Operating Temperature
0 to 40c

Power Consumption
18W

Mount Pattern
VESA-75mm

Regulatory Certifications
FCC, CE, ROHS

The Adapt-IQV 10" Tablet

With hardware designed for commercial and retail use, added features such as robust case, tempered glass, design and testing for 24/7 use, VESA mounting, SD card protection system and stereo audio output, our tablet is the best Android solution for the demanding commercial and retail environments. The Adapt-IQV utilizes the security of wired with optional power over Ethernet OR the convenience of wireless Ethernet connections. Designed for fixed applications where a rugged mountable Android tablet is desired and where battery power is not required.

The Mimo Adapt-IQV tablet is designed to enhance the customer experience and provide the most cost effective solutions for retail, commercial, industrial, and hospitality markets. Perfect for end-cap displays, kiosks, or as a customer-facing display in retail POS/POP environments.

The Adapt-IQV is designed and supported as a long term commercial product. The external specifications and tooling are controlled to ensure a long product life, which is crucial for maintaining continuity for all phases of project rollouts and service. The internal assemblies were developed for the Adapt-IQV and are not subject to obsolescence. While internal components may change for the better, this can be done without modification by the end user.

Features:

• Multi-point capacitive touch screen
• CPU - ARM Cortex-A9
• 16 GB eMMC Flash
• 2D Barcode scanner (optional)
• +,–, Up, Down, Menu/Enter
• Black metal back
• Tempered glass
• 5mp camera (optional)

Applications:

• Kiosk information system
• Gaming and entertainment
