

Barcode Scan Module

MCT-BCS2-OPT

For use with the MCT line of tablets

- MCT-70HPQ can accept any one module
- MCT-10HPQ and MCT-156HPQ can accept any 3 modules

Image barcode reader module is suitable for scanning 2D barcodes easily and quickly.

It is powered by patented advanced imaging technology. This computerized image recognition system can read barcodes printed on paper or plastic or displayed on mobile phones with excellent motion tolerance.

The tablet barcode reader supports both mainstream 1D and standard 2D barcode symbologies (e.g., PDF417, QR Code, Data Matrix, Composite Code) as well as Chinese Sensible Code and GS1-DataBar™ (RSS) (Limited/ Stacked/Expanded versions).
