

# Near Field Communication NFC Reader

MCT-NFC-OPT

## For use with the MCT line of tablets

- MCT-70HPQ can accept any one module
- MCT-10HPQ and MCT-156HPQ can accept any 3 modules

Mimo's Near Field Communication Reader allows for an increase in operation efficiency by allowing the user to book a meeting room from the panel in person, as well as allowing touch enabled authentication with staff IDs, badges and guest passes. The NFC Chip Reader's sleek and compact design ensures that it will fit in any office.

\*\*Currently, the Mimo NFC Reader does not support 125KHz proximity technology.

### Features:

- Instant onsite booking
- Access request authentication
- Compatible with building design
