

Security Adapter Plate for 10.1" Mimo MCT Tablets - Blocks All Connections Except Power and Ethernet

MCT-PC1-10

This security latch plate is attached to the 10.1" MCT tablets using the Vesa mounting holes. Once installed, the security adapter plate blocks access to all ports except the power and Ethernet connections. This security plate was designed to prevent inadvertent access to the rest of the ports.

- All steel construction, 14 gauge
- Powder coated black to match the back of the tablets
- Mounts to the Vesa holes in the back of the tablet
