

10.1" HDMI Open Frame Display

UM-1080H-OF / UM-1080CH-OF

This display employs the latest IPS technology to ensure that panel color performance remains nearly constant at all viewing angles.

Open Frame 10.1" IPS HDMI Monitor

Now with the ubiquitous HDMI interface, the UM-1080H-OF is our widest viewing angle open frame 10.1" monitor. The UM-1080H-OF is a 10.1" open frame monitor (display-only) for applications that will be integrated into other equipment or enclosures. Same slick design features but in a long-lasting molded metal product cycle-enclosure. Future generation panels can be phased-in without external changes. The screen can display in either landscape or portrait orientations and has nearly 180 degree viewing angles. The UM-1080H-OF open frame monitor is designed to provide the most cost effective solutions for consumer, retail POS, and hospitality markets.

Features:

- Pixel arrangement: RGB vertical stripe
- Display colors: 262,144
- Surface treatment: Hard coating (3H), anti-glare
- Capacitive touch (UM-1080CH-OF)
- Non-Touch (UM-1080-OF)
- HDCP Compliant
- Rear 4 point mounting for secure installation
- Utilizes HDMI input for video and USB or 5v DC for power.

Applications:

- kiosk information system
- gaming and amusement
- light industrial shop-floor automation
- POP/POS

UM-1080H-OF
