

## 7" HDMI Multi-Point Capacitive Touch Open Frame Display

UM-760CH-OF

UM-760CH-OF

**HDMI**<sup>™</sup>  
HIGH-DEFINITION MULTIMEDIA INTERFACE

*Super slim HDMI-driven LCD monitors are a friendly and affordable way to add a display to any computer or interface system.*

### Now available with HDMI

Now with the ubiquitous HDMI input for video. Previously only available with the convenience of single cable USB video, the UM-760CH-OF from Mimo Monitors now offers HDMI to supplement where USB video is not supported or inconvenient. With the HID compliant touch screen plus HDMI video, the new UM-760CH-OF can be installed to almost any platform without drivers.

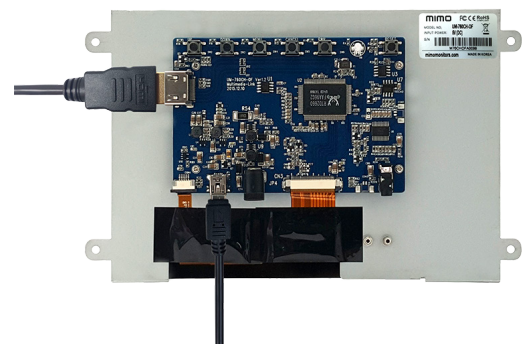

Uniquely, this new monitor line still reduces number of cables. While a typical HDMI touch display will require 3 separate cables, the new HDMI touch displays from Mimo Monitors only require 2 cables. This simplifies connection, and makes for a more attractive installation.

### Features:

- Screen: 7" diagonal
- 1024x600 Resolution (WSVGA) LCD
- Viewing angles: 75/75/70/70
- Pixel pitch: 0.15 (H) x 0.15 (V)
