General Information:

Our 1.0mm (6 strand) High Density Polyethylene Knotted Netting is a professional Grade, UV stabilised, high strength netting suitable for permanent outdoor installations. The durable and robust manufacture ensures the netting is designed to last, even in trying environmental conditions.

This netting is simple and efficient to work with. Being a square mesh design, it can significantly reduce installation times and labor costs. This netting won't pull or stretch in either direction, which allows for precise installations.

This netting has been specifically designed for covering aquaculture ponds. The principal function of this netting is to stop the larger birds entering the pond space. The smaller birds 'can' still enter, however they are generally of no concern to the fish.

Applications:

- Pond and dam covering net
- Pond and Pool Cover netting
- Duck exclusion net
- Boat Cover Netting
- Warehouse / Factory Bird Control
- Commercial Bird Netting Application
