Custom Made Cargo Nets:

Our cargo nets are manufactured in our overseas factory. Custom nets are available as follows:

Approximate 3 month waiting period

The overall net size can be as per your requirement. If the quantity of nets required is small however, then the type of rope used (colour/diameter) must match one of our existing cargo net types.

For example: If you just wanted a 1 off, 4.2m x 1.8m cargo net, then you would need to have that made out of either 10mm White Rope or 16mm Green rope as per our existing types of cargo nets. Delivery of this 1 off net would be approx 3 months.
