- **GSM (Grams per Sq Metre):** 31
- **Other:** UV Treated

### Related Information:

New Regulations now apply to the purchase and use of bird netting in the state of Victoria. If you are located in Victoria, please ensure your use of this netting meets the requirements below prior to purchase.

In Victoria, it is prohibited to purchase and use bird netting with an aperture size greater than 5mm x 5mm at full stretch to protect household fruiting plants.

This bird netting IS NOT suitable for "household use" in the state of Victoria.

Where the objective of growing the trees or plants is to produce a commercial harvest for sale, with the intent to make a profit, the scale of such an activity should be consistent with other commercial orchards, vineyards or produce businesses.

By purchasing this net in Victoria we understand that you are either a commercial operator OR are using this net for an application not related to Fruit Trees.
