  - Green: 69.48%
  - Black: 94.2%

Quatra brand Shade Cloth is a high end HDPE fabric designed for use in a range of applications. Manufactured with a high UV % component, our range of Shade Cloth is designed for the harsh Australian environment. Manufactured of 100% Knitted Monofilament, this cloth is very strong and can be cut without unravelling.

### Applications:

Commercial & Residential Horticulture and Agriculture

- Screening / Building Worksites
- Frost Reduction
- Wind Break for immature gardens and trees (also reduces dust and rubbish)
- General Purpose residential

Please note that the Shade factor % is not a specific measurement of Ultra Violet Radiation (UVR) Block. The light and UV absorption may vary these %'s.
