Unit 7 / 1-13 Childs Road, Chipping Norton, NSW, Australia, 2170

PRODUCT SPECIFICATION/ DATA SHEET

Item:

X-Weave 70 GSM Bird / Hail Net

Options Available:

- Mesh Sizes: 17mm x 17mm (+ additional interior Cross Weaves)
- · Colour: White
- Construction: Woven Diamond

General Information:

Our 70GSM X-Weave mesh is a Diamond Pattern construction, with 2 additional cross weave stitches within each mesh. It is a STRONG and most importantly VERSATILE netting, with its primary applications being:

- Small Mesh Anti Bird Netting (perfect for excluding smaller birds but still allows bees to enter)
- Heavy Duty Bird netting for Vineyards / Orchards (70 GSM is near double the weight of your average hardware store variety)
- Added Hail Protection due to the X-Weave pattern (whilst keeping a very low Shade Percentage)

The main benefit of the X-weave design is to allow the mesh size to be reduced for small birds and hail, whilst keeping weight and overall shade creation to a minimum.

Applications:

- Small Mesh Anti Bird Netting
- Heavy Duty Bird netting for Vineyards / Orchards
- Added Hail Protection due to the X-Weave pattern

Not suitable for VICTORIAN household use

Technical Specifications:

- Manufacture: 380D High Density Polyethylene Knotless
- Mesh Size: 17mm x 17mm (+ additional interior Cross Weaves)
- · Colour: Black or White
- GSM (Grams per Sq Metre): 70
- Overall Weight: 3.1kg
- Other: UV Treated

Related Information:

New Regulations now apply to the purchase and use of bird netting in the state of Victoria. If you are located in Victoria, please ensure your use of this netting meets the requirements below prior to purchase.

In Victoria, it is prohibited to purchase and use bird netting with an aperture size greater than 5mm x 5mm at full stretch to protect household fruiting plants.

This bird netting IS NOT suitable for "household use" in the state of Victoria.

This bird netting CAN BE legally purchased for commercial use in the state of Victoria. Commercial use includes commercial orchards, vineyards or fruit and vegetable produce businesses. Where the objective of growing the trees or plants is to produce a commercial harvest for sale, with the intent to make a profit, the scale of such an activity should be consistent with other commercial orchards, vineyards or produce businesses.

By purchasing this net in Victoria we understand that you are either a commercial operator OR are using this net for an application not related to Fruit Trees.
