SmartBench V1.3 PrecisionPro + Specification

Movement

| X axis travel: | 1265mm (49.8") |
|------------------------|---------------------------------------|
| X max speed: | 6 meters per minute (236" per minute) |
| Y axis travel: | 2515mm (99.0") |
| Y max speed: | 6 meters per minute (236" per minute) |
| Z axis travel: | 130mm (5.12") |
| Z max speed: | 2 meters per minute (78" per minute) |
| Max sheet cut size: | 2500 x 1250mm (98.43" x 49.2") |
| Max depth of material: | 152mm (6.0") |
| X & Y Axis: | Rack and pinion |
| Z Axis: | Twin lead screws |

Processing your model

| Software: | Any CAM software with a GRBL post processor |
|-------------|---|
| File Types: | .nc or .gcode |
| | |

Finished part

| Accuracy: | +/-0.5mm (0.019") or better |
|-----------|-----------------------------|
| | |

Power requirements

| Voltage: | 230v or 120v |
|----------|--------------------------|
| Power: | 1400 watts or 1900 watts |

Physical dimensions

| Length: | 2740mm (107.9") |
|---------|-----------------|
| Width: | 1650mm (65.0") |
| Height: | 1350mm (53.2") |
| UDL: | 100kg (225 lbs) |

Pallet shipping dims

| Number of Units: | 6 |
|------------------|------------------|
| Total Weight: | 650kg (1462 lbs) |

Single units shipping dims

| Number of Boxes: | 4 |
|------------------|-----------------|
| Total Weight: | 105kg (236 lbs) |

YetiPilot V1.0

| Cutter Dia | 3mm - 10mm |
|------------------|----------------------------------|
| Materials | Wood based boards |
| Cut types | Profile & Pockets |
| Adjustment rate | 200 milliseconds |
| Adjustment range | 10% - 200% of original feed rate |

Spindle

| Model: | SC2 |
|---------------------|--------------------------------|
| Speed: | 4,000 - 25,000 rpm |
| Speed Control: | Digital |
| Auto Tool Stop: | Yes |
| Advanced reporting: | Yes |
| Power: | 1000 watt |
| Collet: | ER16 - Max shank 10mm (0.394") |
