Locate round holes
amongst hexagons.

A close-up diagram showing a grey rubber spacer being pushed through a hole in a hexagonal metal mesh. A green arrow points to the left, indicating the direction of insertion.

Push Rubber Spacer
through from the
back of the guard
so Hexagonal shape
sits on the front face

ESSENTIAL CHECKS

It is recommended that periodic inspections are made to ensure that dirt and debris have not become trapped between the guard and the radiator/oil cooler. Such dirt and debris would reduce the cooling efficiency of the radiator/oil cooler.

It is recommended that periodic inspections are made to ensure that all fixings are fully tightened.
