

FITTING INSTRUCTIONS FOR CP0217BL AERO CRASH PROTECTORS TRIUMPH STREET TRIPLE 675 '07

TOWARDS REAR
OF BIKE

TOWARDS FRONT
OF BIKE

Please note that the way the kit is packed does not necessarily represent the way of mounting to the bike

Please note that in cases where kits are packed with rubber washers holding the components onto the bolt – *the rubber washers should be thrown away!*

Left-hand side (as you sit on bike)

- Remove the two top engine bolts as arrowed in above images (RHS SHOWN).
- Take the shorter bar and place the M10x130mm cap head bolt with a washer under the head through the front hole, then slide the 47.5mm long plain spacer over the bolt and up to the bar. Take the M10x60mm cap head bolt with a washer under the head and place through the rear hole.
- Fit the assembly to the bike using the engine mount positions and tighten. (Do not exceed 40nm of torque).

Unit 1, Shelley's Lane, East Worldham, Alton, Hampshire, GU34 3AQ

Tel: +44 (0)1420 89007 Fax: +44 (0)1420 87301 www.rg-racing.com Email: info@rg-racing.com

- Install one of the M10x60mm hex head bolts and a washer into bobbin counter bore and fit the bobbin to the spanning bar. Tighten bolt until you feel some compression from inside the protector. **PLEASE NOTE: BOBBIN MUST BE POSITIONED AS PICTURED ABOVE WITH BIGGER END TOWARD FRONT OF BIKE.** Turn a little more so that you feel the compression increase slightly. Then apply a quarter turn. Do not overtighten as damage can occur. Do not exceed 40nm of torque.
- Fit the cap into the protector.

Right-hand side (as you sit on bike)

- Remove the two top engine bolts as arrowed in above images (RHS SHOWN).
- Take the longer bar and place the M10x120mm cap head bolt with a washer under the head through the front hole, then slide the 38.5mm long stepped spacer over the bolt and up to the bar (large diameter next to the bar). Take the M10x70mm cap head bolt with a washer under the head and place through the rear hole then slide the 6mm spacer over the bolt and up to the bar.
- Fit the assembly to the bike using the engine mount positions and tighten. (Do not exceed 40nm of torque).
- Install one of the M10x60mm hex head bolts and a washer into bobbin counter bore and fit the bobbin to the spanning bar. Tighten bolt until you feel some compression from inside the protector. **PLEASE NOTE: BOBBIN MUST BE POSITIONED AS PICTURED ABOVE WITH BIGGER END TOWARD FRONT OF BIKE.** Turn a little more so that you feel the compression increase slightly. Then apply a quarter turn. Do not overtighten as damage can occur. Do not exceed 40nm of torque.
- Fit the cap in to the protector.

CONSUMER NOTICE

The catalogue description and any exhibition of samples are only broad indications of the Products and R&G may make design changes which do not diminish their performance or visual appeal and supplying them in such state shall conform to the order. The Buyer acknowledges no representation or warranty (other than as to title) has been given or will apply to the Products other than those in R&G's order or confirmation and the Buyer confirms it has chosen the Products as being of merchantable quality and suitable for its particular purposes. Where R&G fits the Products or undertakes other services it shall exercise reasonable skill and care and rectify any fault free of charge unless the workmanship has been disturbed. The Buyer is responsible for ensuring that the warranty on the motorcycle is not affected by the fitting of the Products. On return of any defective Products R&G shall at its option either supply a replacement or refund the purchase money but shall not be liable if the Products have been modified or used or maintained otherwise than in accordance with R&G's or manufacturer's instructions and good engineering practice or if the defect arises from accident or neglect. Other than identified above and subject to R&G not limiting its liability for causing death and personal injury, it shall not be liable for indirect or consequential loss and otherwise its liability shall be limited to the amounts paid by the Buyer for the Products or the fitting or service concerned. These terms do not affect the Buyer's statutory rights.

R&G RACING RETURNS POLICY (NON-FAULTY GOODS)

Returns must be pre-authorised (if not pre-authorised the return will be rejected). Goods may only be returned direct to us if they were purchased direct from us (customer must prove if necessary). Otherwise to be returned to original vendor. Goods must be in resellable condition, in the opinion of R&G Racing. All returns are subject to a 25% restocking and handling fee (25% of the gross value exc. P&P – at the prevailing price at time of purchase). The customer must pay any and all carriage charges. No returns of discontinued products, unless within 14 days of purchase. This policy does not affect your statutory rights and does not refer to faulty goods.

FRANCE
INSTRUCTIONS DE MONTAGE POUR LES PROTECTIONS
CP0217BL AERO
TRIUMPH STREET TRIPLE 675 '07

LA PRESENTATION DES PIECES R&G DANS L'EMBALLAGE N'EST PAS TOUJOURS IDENTIQUE AU SENS DE MONTAGE.

Merci de noter que dans le cas où les protections sont assemblées avec une bague en caoutchouc, merci de bien vouloir le retirer lors du montage des pièces sur la moto.

Gauche

- Enlever les deux vis de fixation moteur (voir photo ci dessus).
- Prendre la barre de fixation R&G la plus petite.
- Glisser une rondelle sur la vis M10x 130 mm , et placer la dans la fixation avant de la barre R&G.
- Glisser l'entretoise L=47.5mm derrière la barre sur la vis M10x130mm
- Glisser une rondelle M10 sur la vis M10x60.
- Placer l'ensemble (vis + bloc) sur la moto.
- Serrer les 2 vis.
- Ne pas excéder 40 nm.
- Glisser une rondelle M10 sur une vis M10x60 mm (vis hexagonale) et glisser le tout à travers le tampon R&G.
- Serrer le tampon sur la barre R&G.
- Serrer la vis jusqu'à ce que vous sentiez la compression à l'intérieur du tampon, ne pas trop serrer.
Couple de serrage Maxi 40nm.
Clipper ensuite le cache R&G sur le tampon.

Droit

- Enlever les deux vis de fixation moteur .
- Prendre la barre de fixation R&G la plus grande.
- Glisser une rondelle sur la vis M10x 120 mm , et placer la dans la fixation avant de la barre R&G.
- Glisser l'entretoise L=38.5mm derrière la barre sur la vis M10x125 mm (la partie de l'entretoise la plus large sera à mettre contre la barre R&G)
- Glisser une rondelle M10 sur la vis M10x70.
- Placer l'ensemble (vis + bloc) sur la moto.
- Serrer les 2 vis.
- Ne pas excéder 40 nm.
- Glisser une rondelle M10 sur une vis M10x60 mm (vis hexagonale) et glisser le tout à travers le tampon R&G.
- Serrer le tampon sur la barre R&G.
- Serrer la vis jusqu'à ce que vous sentiez la compression à l'intérieur du tampon, ne pas trop serrer.
Couple de serrage Maxi 40nm.
Clipper ensuite le cache R&G sur le tampon.
