FITTING INSTRUCTIONS

Near side (left side as you sit on bike)

- Remove the engine mounting bolt arrowed in picture 'A' (using T50 male socket).
- Slide one of the 10mm washers (item 7) onto the longer M10 hexagon headed bolt (item 4) so washer sits against head of bolt.
- Slide the small 5mm wide spacer (item 6) over the bolt so it sits against washer just fitted.
- Slide serrated locking washer (item 5) over the bolt so it sits against the spacer just fitted.
- Next slide bolt and washer through the longer crash protector (item 2) so head of bolt goes into counter-bore in the crash protector.
- Next slide the longest spacer (item 3=39mm long) over bolt so larger diameter sits against the crash protector (the amount of bolt protruding from spacer should be the same as the original engine mounting bolt =50mm).
- Offer this assembly up to frame mount and tighten bolt until you feel some compression from inside the protector using 17mm socket and wrench. **PLEASE NOTE THE CRASH PROTECTOR MUST BE POSITIONED AS IN PICTURE 'C' ABOVE WITH BIGGER END TOWARD FRONT OF BIKE.** Turn a little more so that you feel the compression increase slightly. Then apply a quarter turn. Do not overtighten as damage can occur to the bike. Do not exceed 40nm of torque.

- Slide the remaining serrated locking washer (item 5) over the bolt so it sits against washer just fitted.
- Next slide bolt with washers through remaining shorter bobbin (item 9) so head of bolt goes into counter-bore in crash protector.
- Next slide the remaining shorter spacer (item 8=24mm long) over bolt so larger diameter sits against crash protector (the amount of bolt protruding from spacer should be the same as the original engine mounting bolt=50mm).
- Offer this assembly up to frame mount and tighten bolt until you feel some compression from inside the protector using 17mm socket and wrench. **PLEASE NOTE THE CRASH PROTECTOR MUST BE POSITIONED AS IN PICTURE 'C' ABOVE WITH BIGGER END TOWARD FRONT OF BIKE.** Turn a little more so that you feel the compression increase slightly.
