

# NEW RAGE CYCLES

## INSTALLATION INSTRUCTIONS

### MV AGUSTA BRUTALE MY17

#### FRONT TURN SIGNALS

- 1 Remove (4) bolts with 5mm allen key or socket to remove headlight (pictures 1/2)
- 2 Unplug 3 connectors; 1 main harness, 2 turn signal connectors (picture 3)
- 3 Remove (1) bolts on either side of headlight with 5mm allen key or socket to take off turn signal brackets (picture 4)
- 4 Using a 4mm allen key or socket, remove stock bolt mounting turn signal and disassemble (picture 5)
- 5 Take NRC signal, and remove (2) screws holding lower plate as this needs to mount first
- 6 Take white spacer and slide into rubber grommet (picture 6)
- 7 With provided M5 bolt and nut, mount lower signal bracket making sure not to overtighten. Blinker will flex inside rubber grommet if you do (picture 7)
- 8 Reinstall (2) screws to mount lens and top plate (picture 8)

# NEW RAGE CYCLES
