

EVO4 BOOTS

Building on nearly two decades of military use the EVO4 sets the standard in performance footwear for diving and for navigating rough and slippery terrain. The Vibram® MEGAGRIP™ sole provides the foundation of the EVO4's unparalleled grip on wet or dry surfaces, rugged longevity, and optimal ground adaptability. The mid-height, low profile, rapid lace-up design offers solid support yet still fits a majority of fin pockets allowing for varied fin techniques and superior comfort.

Features

- Vibram® MEGAGRIP™ sole for world class traction
- Flexible ankle support
- Low profile design for more fin choices
- Thumb loop donning aid
- Quick and easy lace-up system
- Lace storage pocket
- Fin keeper
