

The RAPTOR is a long duration breathable drysuit designed for flood, swift-water and other water rescue missions. Based on the field-proven OSPREY the RAPTOR's improved design incorporates more features, such as adding a low-profile automatic exhaust valve mounted behind the neck and two thigh pockets with securing flaps. Overall, the RAPTOR provides a comfortable standby mode while offering protection in unpredictable environments.

Features

- Patented true self-entry featuring Captive Zip Design (Pat.# 10,093,401)
- Patented adjustable full circumference neoprene neck seal (Pat. #9,714,074)
- Saltwater resistant waterproof breathable material
- Superior fit and comfort assisted by pre-shaped legs and torso
- Loop shoulder panels for adhering patches
- Neoprene wrist seals, gauntlet overlays and hook & loop cinches
- Anti-flush wader belt located under jacket
- Relief/Comfort zipper with a Flap fitted as standard
- Attached Dry Socks fitted as standard
