

HAND-FINISHED PRE-CUT SAUNA

saunas.com

saunas

INTRODUCTION

We have combined our 50+ years of expertise with high-end architects, first-class builders, and lifelong designers to create our very own line of Hand-Finished saunas. As a permanent fixture or addition to your home, Scandia Manufacturing Hand-Finished Pre-Cut Kits are the ideal option for those seeking to set their sauna a step above the rest. By utilizing a water-based protective wax that is quick-drying, highly durable, and ultra-absorbent, the color is locked into the wood while forming a pleasantly smooth and dirt-resistant surface.

Hand finishing provides a unique, stylish, and aesthetically pleasing look to your sauna. Our process is of the utmost quality and lends a luxurious feel, making your sauna experience unlike any other.

Choose between a gorgeous Ivory White or a timeless Natural Black stain to achieve the sauna that only dreams are made of.
